ECO RESPONSABILI INSIEME

COLLEZIONE 2024/25

Prodotti di origine naturale per un mondo più pulito.

I nostri prodotti **Greendec** sono realizzati in materiale ecologico e smaltibile presso gli impianti di compostaggio industriali per garantire il massimo rispetto per l'ambiente. Non provengono dalla manipolazione di sostanze chimiche o sostanze sintetizzate in laboratorio, bensì da risorse rinnovabili e non sono tossici.

Crediamo fermamente che l'impegno di tutti sia fondamentale per proteggere e salvaguardare il nostro pianeta a partire dalla nostra vita quotidiana e quindi, scegliendo i nostri prodotti per decorare con colore e fantasia la tua tavola, puoi dare un contributo importante a questa causa.

Verifica il regolamento del tuo comune in materia di smaltimento rifiuti.

Le nostre materie prime sono certificate PEFC™ e OK COMPOST INDUSTRIAL.
Continuiamo a garantire materiali di eccellenza per il rispetto dell'ambiente.

MCR vuole dare un tocco di eleganza e creatività all'apparecchiatura dei tavoli, con colori e fantasie che esprimono il gusto personale del cliente. Fornire la possibilità di poter mettere in vista il proprio estro e la propria ambizione rendendo un locale sempre giovane e alla moda, è il motore principale della nostra attività.

L'esperienza trentennale ci ha portato a creare prodotti di ottima qualità. L'ambizione a far del nostro meglio, alimenta ogni giorno la voglia e la fantasia di rinnovare, migliorando i prodotti in base alle esigenze del cliente e alle evoluzioni del mercato.

NON SOLO CARTA

MCR trasforma prodotti monouso in Airlaid, in tessuto non tessuto, spunlace o in carta, con qualità e fantasia per offrire un prodotto dinamico e facilmente adattabile ad ogni tipo di esigenza e realtà, dalla caratteristica morbidezza e resistenza simili al tessuto vero e proprio.

Non a caso abbiamo scelto, negli anni, di specializzarci nell'AIRLAID, prodotto dalle qualità eccezionali.

E' morbido, assorbente e resistente quasi come la stoffa ma allo stesso tempo è monouso.

La possibilità di stampa di questi materiali consente di realizzare varie fantasie e colori, mentre la continua ricerca del design, ci permette di seguire la moda e di creare nuovi prodotti per Monouso, Catering e Ristorazione.

AIRLAID e TNT (Tessuto Non Tessuto)

Simile al tessuto, l'Airlaid viene prodotto lavorando fibre di cellulosa e lattice naturale attraverso l'utilizzo di getti d'aria. Dall'unione armonica di questi elementi, nasce un valido sostituto del classico tessuto in tela, che si distingue per le sue caratteristiche di **elevata resistenza e assorbenza unite ad una piacevole sensazione di delicatezza.**

Prodotti con cellulosa vergine a fibre lunghe, **l'Airlaid ti permette di decorare la tua tavola** con stile ed eleganza in ogni occasione.

Puoi combinare fantasie e colori per creare un'atmosfera più adatta al momento che stai vivendo, ma **senza trascurare la qualità.** Rendendo straordinario il risultato, perché le sue caratteristiche lo fanno percepire come se fosse un prodotto in tessuto.

Sfoggia il catalogo e scegli la fantasia e il formato delle tovaglie più adatto a te.

TOVAGLIETTE SEMIRIGIDE

Vista la crescente richiesta di tovagliette 30x40 abbiamo inserito un prodotto spunlaid da 80 gr/mq caratterizzato da rigidità dovuta all'importante spessore che dona corpo alla tovaglietta, trattandosi comunque di un prodotto usa e getta, sempre igienico. Queste caratteristiche permettono una buona presa, facilitando l'apparecchiatura evitandone pieghe e spostamento involontari durante l'utilizzo.

Da proporre in sostituzione alle tovagliette in materiali sintetici, cosiddette "riutilizzabili" ma poco igieniche e più dispendiose considerando il tempo e prodotti impiegati per passarle ad ogni nuovo utilizzo con igienizzanti.

POLLOCK

Our Master Roaster does more than just... well, roast masterfully. He's also a Master Cupper, executive Green Coffee Buyer, and a licensed Q Grader. With that impressive résumé, you can bet he knows quality when he sees it. He's spent 33 years perfecting his art, and heads the Roasting and Production teams in Camarillo, California.

A romantic outdoor dinner table is set in a field of tall yellow flowers and purple lupines. The table is covered with a white cloth and features a large vase of purple flowers, two glasses of white wine, bowls of fruit, and small candles. The scene is bathed in warm, golden light, suggesting a sunset or sunrise setting. The word "SOFT" is written in large, white, sans-serif capital letters across the upper middle of the image.
